Official Paper of Lincoln County

PUBLISHED EVERY THURSDAY BY  
THE RECORD PUBLISHING COMPANY.

OFFICE: MARION BUILDING,  
LAOUCOUR STREET.

TERMS:

Subscription, One Year, by Mail, \$4.00  
Subscription, Six Months, " " 2.50  
None Forwarded till Paid For.

Advertising rates furnished upon application  
at the office.  
Entered as Second-Class Matter.  
Communications are solicited, but the paper  
will not be responsible for the opinions of its  
correspondents.

LOCAL AND OTHERWISE.

H. H. Cooper has a building on his lot at  
Reeves.

For family liquors go to Sam E. Wertheimer.

Al. Thorne is taking the School Census  
for this district.

Mrs. E. L. Godbe and children departed  
for Salt Lake by Monday's stage.

A clean-up at the Bullionville mill was  
made Tuesday from the last run of April  
Pool ore.

Mrs. Robert Francis was in town Saturday  
and had several molars extracted by Dr.  
Campbell.

Dave Service and Louie Stern of Hiko  
came in yesterday and pulled out from their  
return this afternoon.

The Industrial army, running off with the  
U. P. train is what caused our mail of last  
Sunday to be behind time.

Deeds for the Jim Crow mine to J. R.  
De Lamar were received at the County  
Recorder's office for record yesterday.

It is reported that one of our prominent  
merchants is shortly to take unto himself a  
rib but not from this section.

Mike Williams is out on the street again  
as spry as ever. Mike's case of sickness  
was a severe one while it lasted.

Though not with any rush as yet, through  
passengers on the Milford line continue to  
arrive for Ferguson District.

William Lloyd has purchased the old  
Meadow Valley Company residence on  
Meadow Valley street and is moving into it.

Dandruff is an exudation from the pores  
of the scalp that spreads and dries, forming  
scurf and causing the hair to fall out.  
Hall's Hair Renewer cures it.

John Roeder is ready for business in a  
large and commodious tent at Reeves, and  
is preparing for the erection of a substantial  
lumber structure as soon as matters are a  
little farther advanced.

The petition for the establishment of a  
post office at Reeves, was denied by the  
Post Office Department, the new town being  
considered too near the town and postoffice  
of Helene.

China Dick is taking time by the forelock  
in starting up his restaurant in Ferguson.  
Tuesday last he dispatched two wagon loads  
of eatables to tickle the palates of his customers.

A. S. Thompson has just received a car-  
load of Salt Lake Beer, also assorted Soda  
and Sarsaparilla, which he is offering at  
reasonable figures and delivered free to any  
part of town.

**JOB PRINTING in all its  
branches, equal in style to  
any, done at this office.**

Charley Cook opened the Nevada Restaurant  
Wednesday. Charley understands his  
business and will no doubt find much favor  
in our community. See his ad. under New  
To-Day.

Mrs. Mary Carman has received appoint-  
ment as postmaster of this place and for-  
warded the necessary bond yesterday. The  
amount now is \$4,500 as against \$6,000  
three years ago.

Charley Culverwell, after an absence of  
two months on his ranch in Meadow Valley  
Wash, was in town Sunday, looking hale  
and hearty. He says the farmers in that section  
are all praying for rain.

Antone DePaoli, lessee of the Flagstaff  
property at Ferguson District, came up  
Monday and returned with a load of supplies  
embracing rails, blower and air pipe for  
prosecution of work in the main tunnel.

The post holes for the telephone line  
between here and Helene are about finished,  
and the poles are all distributed. The wire  
and insulators are now awaited from Chicago  
and ten days after their receipt, the line is  
expected to be finished.

Joe Delmuc has discontinued his milk  
business in Pioche, his last trip being made  
on the 16th. He goes to Ferguson District  
where he will make immediate preparations to  
follow the same line of trade.

Sunken eyes, a pallid complexion, and  
disfiguring eruptions, indicate that there is  
something wrong within. Expel the lurking  
foe to health, by purifying the blood  
with Ayer's Sarsaparilla. Cures erysipelas,  
Eczema, Salt Rheum, Pimples and Blisters.

Dave Jolly came in Tuesday evening en-  
route for Ferguson to look over the situation  
there with regard to business. His old  
leasing toward Lincoln county will induce  
him to return as soon as times shall justify,  
which with the present outlook will not be  
long.

J. Eisenmann wishes to call the attention  
of those desiring to build, to the fact that he  
has just received a carload of glazed window  
sash, all sizes; also panel, sash and screen  
doors, together with white lead, paints,  
oils and nails, which will be sold cheaper  
than ever, but only for cash.

The building boom for Reeves has not as  
yet set in. A number are beginning to  
think it will be well to wait a short time  
before going to any great expense.

Joe Connerlich is rustling around purchas-  
ing cattle. They are not particularly diffi-  
cult to get but are not in the best of condi-  
tion owing to the severe winter experienced.

The town has been deserted by Indians  
all week. They having important business  
in Panaca attending a fandango and there  
was a goodly company of dancers and fire  
water ad libitum to help along.

Ed. Freudenthal was up from Ferguson  
Monday for supplies with which to pro-  
secute work on the Swift claim. He says he  
hasn't struck it yet but that the chances  
are good enough to stay with, for a time at  
least.

On Monday morning at two o'clock Dr.  
Campbell was aroused from his slumbers to  
go to Panaca to attend the daughter of Ted  
Gentry, who was dangerously sick with  
heart trouble superinduced by an attack of  
saint vitus dance.

The closing out sale of the Godbe Mercan-  
tile Co's store still continues. The stock of  
staple groceries is kept full and complete  
and they go at regular rates with a rebate  
on other goods thrown in. Read their ad.  
on this matter on this page.

Our merchants are complaining of lack of  
business, they say that when the sale of the  
Monkey Wrench property took place they  
expected a great boom, but since the transfer  
it has grown gradually smaller. Don't be  
impatient gentlemen Rome was not built in  
a day.

If ever a man feels like "a poor worm of  
the dust," it is when he suffers from that  
tired feeling. Ayer's Sarsaparilla removes  
this discouraging physical condition and im-  
parts the thrill of new life and energy to  
every nerve, tissue, muscle and fibre of the  
whole body.

Our mutual friend Sammy of the Palace,  
returned the latter part of the week from  
Helene. He looked worn and weary as if  
he had put in a number of hard shifts dur-  
ing his absence, but then we know what a  
rustler he is and perhaps hard work and  
time are beginning to leave their traces upon  
him.

Last week Dr. J. D. Campbell received  
intelligence that his father, a resident of  
Hartland, Livingston county Michigan, had  
died at that place on the 4th, of inflamma-  
tion of the bowels. About two months ago  
he was stricken by paralysis which finally  
resulted in death. He was 75 years old and  
universally respected by the community in  
which he dwelt. He leaves a widow, the  
beloved mother of the Doctor, to mourn his  
loss.

Some good gold ledges are reported from  
the vicinity of Bennett Springs and several  
parties went out from town to-day. The  
locality is in the direction of Chief District  
and the discoveries were made by Panaca  
parties and quite recently. The ground  
thereabouts shows signs of being prospected  
in the past, but for silver, and the gold  
assays now secured, and the size of the  
ledges, lead to the belief that discoveries of  
some value are located.

Reno Gazette: In Carson Monday night  
the Standard Sugar Company was incorpo-  
rated with a capital of 100,000 shares at \$100  
a share. Where the company proposes to  
open or how the Gazette is not informed, but  
the fact that a company has been organized  
is encouraging, and as the gentleman com-  
posing the company are not given to talking  
through their hats something is sure to  
follow the organization.

Zephyr.

The storm indications of Saturday and  
Sunday culminated in a howling storm of  
wind on Monday, which did more damage  
generally here than any such previous storm  
for years. Among the wrecks reported are  
the partial unroofing of the No. 5 works,  
the falling of a smoke stack at the old Ray-  
mond works, a half dozen fences demolished  
in as many parts of town; one house unroof-  
ed and two partially collapsed, one on Main  
street, the other on Laocour street. It was  
a wild day ending with gathered clouds and  
promise of a storm which came lightly in  
the shape of hail.

School Election.

The fourth Monday of this month, the  
28th, is the day fixed for electing school  
trustees. As yet no notice seems to have  
been given for Pioche district. This is a  
matter of importance and should not be  
neglected. Politics cuts no figure whatever.  
The trustees now to be elected take office  
on the first Monday of next July.

Ten days notice by posting in the district  
is to be given by the trustees and if they  
fail to give notice, any three electors of the  
district may give notice for five days.  
Judges and inspectors of election are to be  
appointed by the various school boards, and  
these boards are also to issue certificates of  
election to those candidates receiving the  
greatest number of votes. None of the  
election officers are to receive any pay for  
their services.

Chinese Burial.

On Saturday morning last a Chinaman  
was buried in the lower portion of the public  
burying ground. He had been sick for some  
time with dropsy and being a ward of the  
County Commissioners, was buried by that  
body. From general information he  
appears not to have been in good standing  
with his community for only two of his  
brethren attended the sending off of his  
spirit to the land where confucius resides.  
He was lowered into his last resting place  
and securely planted without a tear to  
bellow his grave. Various articles of grub  
were placed at the feet including a bottle of  
Valley Tan to help him on his way, but  
strange to say that as soon as the spectators  
left, so did the grub. The corpse must have  
been buried with an empty stomach to be so  
eager to fill up. Dr. Wm. Bell appeared to  
be chief mourner and master of ceremonies  
and conducted all the decorations, ges-  
ticulations and prayers for the dead which  
was supposed to be in the Chinese tongue,  
at least so he said. It is rumored around town  
that the Chinese Emperor is shortly to  
decorate him with the order of the red  
button which gives him the right to wear  
two queues.

Awarded Highest Honors--World's Fair.

# DR. PRICE'S Cream Baking Powder.

The only Pure Cream of Tartar Powder.—No Ammonia; No Alum.  
Used in Millions of Homes—40 Years the Standard

A party of twenty-three Coxeyites enroute  
from Ellensburg to North Yakima, Wash.,  
in a boat, lost four men through capsizing  
last Saturday. The party arrived at North  
Yakima in a sorry plight.

Warden Bell's men have tied up 2,000  
bouquets of sagebrush, and Governor Colcord  
has forwarded them to Commissioner  
Yerington. Mr. Yerington will tie every  
spray with a silver cord and it will be a  
charming souvenir of Nevada.—Carson  
News.

Meetings continue to be held scoring W.  
C. P. Beckwith, some even petitioning  
or asking him to withdraw from the contest  
for Congressional nomination. It will be  
wonderful if, in the face of all these demon-  
strations against him, Beckwith should again  
secure a seat in Congress.

W. H. M. Cobb of Carson, who was  
stricken down with spinal meningitis sev-  
eral days ago, died Wednesday. Deceased  
was past grand chanceller and supreme rep-  
resentative of the Knights of Pythias of  
Nevada, and if he had lived he would have  
represented the Nevada Knights at Wash-  
ington in the coming August at the meeting  
there of the supreme lodge.

Foster the weather prophet must certainly  
be endowed with supernatural gifts, for all  
his predictions appear to connect on time  
with his forecasts. He predicted stormy  
and wintry weather the latter part of last  
week and the beginning of the present and  
we enjoyed it to our hearts content in the  
way of clouds of blinding dust. It has had  
one good effect it has cleared our streets of  
waste paper and bark.

The United States Association of Pilots  
now has a woman member in the person of  
Miss C. French. She is first female mem-  
ber ever admitted. Miss French is twenty-  
two years old and knows the Ohio and Mis-  
sissippi rivers thoroughly from Cincinnati to  
New Orleans. She spent fifteen years on the  
river with her father, Captain C. O.  
French, who runs a boat between Cincinnati  
and New Orleans.

Fifty Industrialists took possession of a  
freight train at Lovelock, this State last  
Saturday and all efforts of the trainmen to  
put them off proved futile. The railroad  
people finally gave up the attempt to put  
the Industrialists off and ordered the trainmen  
to pull out for Winnemucca where warrants  
of arrests for the tourists had been issued.  
The men were desperate and declared they  
would fight rather than walk across the  
Nevada desert.

In view of the many recruits expected to  
flock to the banner of the Pioche contingent  
and get meals free gratis for nothing Joe  
Cook has hit upon a happy expedient to  
keep the men out of town and conduct them-  
selves in a peaceful and soberly manner.  
He intends to put them all at work develop-  
ing his mine the Lafayette; he says they  
cannot expect any pay whilst in the pursuit  
of honor and glory and ought to be thankful  
for such an outburst of generosity on his part.

The White Hills mill is running smoothly  
and turning out a great deal of bullion.  
The ore is saved up to over ninety per cent  
and bullion is nearly 900 fine. Over half a  
ton of retort bullion is piled up in the mill  
and as soon as it is melted into bars it will  
be shipped to market. The main shaft on  
the G. A. R. mine, from which the mill  
supply of water is obtained, is now down  
400 feet and a large volume of water has  
been struck. The mill hereafter will be run  
night and day.—Kingman (Ariz.) Miner.

O. K. Olsen, an old employee at the  
Hansauer smelter, met with an accident last  
Saturday from the effects of which he died  
the day following. He was at work oiling  
the machinery, something he has done often  
for years. In some unaccountable way he  
was caught in the belt. He was not wound  
up in the machinery but was hurled  
forward by the belt for quite a distance.  
When picked up it was discovered that his  
back was broken and his whole body paral-  
yzed. He was also bruised and marked  
about the head by his fall.

The work of excavating a canal for utiliz-  
ing Humboldt lake for irrigating purposes,  
has begun in earnest. Three hundred feet  
of canal have already been cut, ranging in  
depth from seven feet to twenty feet, and  
in width twenty-two feet at the top to eight  
feet at the bottom. A dam has been placed  
in the way through to keep as much water as  
possible away from the workmen while  
running the canal north from the slough,  
the lake front is dotted with cabins, and a  
number of claimants have carried lumber to  
issue lands to build houses by which to  
hold 180 acres when the lake is drained.—  
Lovelock New Era.

Waiting.

Waiting and waiting, we men East and West,  
Are waiting for work and hoping our best.  
Waiting for Cleveland and getting our hell  
Of detactor to all, (who would own every soul).  
Waiting to see him suspended each day.  
That our troubles may end some kind of way.  
We wait for the Lord to redeem us again,  
For we'd better be dead than poor broken men.  
We wait for our freedom, but may take a hand  
In cleaning out Grover and all of his band.

ADDRESS SAN FRANCISCO CAL.

The Cook Political Club.

The meeting of the Cook political club at  
their headquarters Saturday night and was  
very sparsely attended, as a meeting had  
been called for the Wednesday previous and  
most of the business disposed of leaving little  
or nothing to be done. At the Wednesday  
meeting chairman Cook again relinquished  
the chair in favor of the vice J. O. Gelabert  
and apologized by stating that he was  
sorry he had not gone with Coxey's army, it  
might have made a new man of him; during  
the past week he had undergone a re-exami-  
nation by the doctors and they shook their  
heads doubtfully and pronounced his case  
critical. They diagnosed it as an upheaval  
of the diaphragm and he might look for every  
minute to be his next. He said if anything  
did happen the interest of the club, should  
be always paramount with him where ever  
he might be sent to in the next world, great  
applause and tears. The member from the  
cemetery was the next speaker, he said in  
coming to the meeting he was told that the  
wild man from Borneo had just come to  
town and would outrank him in the army  
they were present recruiting. He wished  
to sever his connection with the club if that  
was the case for he had quite sufficient of  
that class in the vicinity in which he re-  
sided. The chairman assured him he must  
have dreamed it for if he understood the  
matter he was still safely housed in Borneo  
and tied up with chains to a white elephant.  
Proceeding, the member said he was anxious  
to wind some one up and turning to Mr.  
Casey asked him if he ever studied botany  
(he meant botany) "no" said Casey. "Well  
I have" said the member "I have been a  
student for two years and ought to be posted  
on the subject. I have been offered a posi-  
tion by Yung Bung the emperor of China to  
proceed at once to the Canibal Islands  
somewhere in the state of Wisconsin he  
thought, and thoroughly explore the country  
for which he would receive a compensation  
of \$1000 per month and be decorated. This  
announcement fell like a clap of thunder on  
all the members and all arose to their feet  
as a unit and besought him to reconsider  
the matter for if he left the club it would go  
to smash and what then would become of  
Coxey's army; the whole nation would con-  
demn the member as a traitor to the cause  
to desert them in their present dilemma. He  
said he would commune with the hydrant for  
a few minutes and would inform them of his  
decision. He presently returned smacking  
his lips as if he had partaken of some-  
thing good and looking over the members,  
said in a sepulchral tone "boys I cannot leave  
you" and sat down with a thud that caused  
the general's burto to jump to his feet think-  
ing it was time to march.

Several resolutions were put in for con-  
sideration such as the use of profanity, spit-  
ting on the above, and several others of less  
importance which were passed without  
dissent. The chairman said that the people  
of Pioche were dropping on themselves and  
coming forward to aid the good cause but  
none had proffered money of any kind, one  
party had offered a team to convey the  
army's baggage as far as the top of the hill  
at the old smelter and several of the boys  
had offered to carry light articles such as  
the cuffs and collars. The sky getting overcast  
an adjournment was made for fear they  
could not reach home before it began to rain.

New Precious Metals.

Gold and silver are no longer the precious  
metals of the world, says an exchange. An  
ounce of silver is worth about 75 cents, an  
ounce of gold as a rule \$20. Palladium,  
which was discovered in 1803 by Wollaston,  
is a metal of steel-gray color and fibrous  
structure, and is paid for at the rate of \$28  
per ounce. Osmium, a brittle metal usually  
found with platinum, cost \$35 per ounce,  
and iridium \$40. Ruthenium, which is very  
hard and brittle, brings \$82 per ounce, and  
niobium, also called columbium, first found  
in New London, Conn., is a very rare metal,  
discovered in an ore oxide, is rated at \$100  
per ounce. Yttrium, discovered by Woe-  
hler in 1828, is a metal of grayish-black color,  
with a perfectly metallic luster, which is  
very rare. It is paid for at the rate of \$120  
per ounce, while lithium, the lightest of all  
metals, brings \$150 per ounce.

Gincium or beryllium, as it is also called  
appears in the form of a grayish-black pow-  
der, made very lustrous by burnishing. It  
has a market value of \$185 an ounce.  
Barium metal, which was discovered in 1808,  
is worth \$200 an ounce, and didymium, dis-  
covered in 1846, and very rare indeed, brings  
\$215 an ounce.

Years ago when Arthur McEwen was a  
fledgling reporter, he attended an opera house  
ball during the winter, and desiring to be  
gallant knelt down and removed the rubber  
overshoes of a fair damsel, which feat ac-  
complished he stood off in admiration, mur-  
muring: "My dear Miss —, what fairy  
boots you have!" The fair damsel however,  
happened to have a Comstock cold just  
about that time and was slightly deaf.  
"Sir," she retorted in paralyzing accents,  
"I desire you to understand I do not wear  
fairy boots," McEwen has never been the  
same since.—Virginia Enterprise.

NEW TO-DAY.

Born.

At Pioche, Nevada, May 16, 1894, to the wife of  
Alden Ferguson, a son.

on Tuesdays Thursdays and Saturdays  
Fare, one way \$5 - Round Trip \$8.  
Freight carried safely and delivered  
promptly at 1 1/2 cents per pound.

DENTON & AUSTIN Prop'r's.

NOTICE.

To Whom it May Concern:  
All persons are hereby notified not to trespass  
on any portion of the surface ground of the Jim  
Crow No. 3 or the Fergus mining claims, in Fer-  
guson Mining District, Lincoln County, Nevada.  
JOHN PERTSCHER,  
MRS. JULIA McFADDEN, H. A. COHEN.  
Dated Pioche, Nevada, May 8, 1894.

Application for a Patent.

No. 902.  
UNITED STATES LAND OFFICE,  
Carson City, Nevada, April 9, 1894.  
Supplemental notice is hereby given that  
William Lloyd, whose postoffice address is Pioche  
Lincoln County Nevada, did on the 20th  
day of June, A. D. 1893 file his application for  
a patent for fifteen hundred (1500) linear feet of  
the "Price" mine or vein bearing silver, with  
surface ground two hundred (200) feet in width,  
situated in the Fergus mining district, County of  
Lincoln, State of Nevada, and designated by  
the field notes and official plat on file in this office  
as Lot Number 58, in Township No. 1, North of  
Range, No. 4 East of Mount Diablo base and Meri-  
dian, the boundaries and description of said lot  
No. 58 being as follows to-wit:  
Beginning at a post marked No. 1, U. S. L. No. 58,  
at the south-east corner of said claim, whence the  
survey section corner on east-rail boundary of sec.  
28, T. 1 N. R. 6 E. bears N 71 deg. 07 min E 2435 feet  
thence running first course 64 deg 58 min W 100  
feet to the corner of south and line, whence the  
discovery point marked U. S. L. No. 58 lies, bears N 25  
deg. 02 min W 750 feet, 300 feet to post marked U.  
S. L. No. 58, thence second course N 25 deg. 02  
min W 1500 feet to post marked U. S. L. No. 58; thence  
third course N 64 deg 58 min E 200 feet to post  
marked U. S. L. No. 58; which is also the N. W. corner  
of the Bullionville claim. U. S. survey  
No. 37, thence along the south west side line of said  
Bullionville claim, S 25 deg. 02 min E, 1500 feet  
to the place of beginning.  
From the discovery point, a shaft 25 feet deep  
bears N 64 deg. 58 min E 27 feet distant; a shaft 75  
feet deep bears S 31 deg E 135 feet distant; a  
shaft 75 feet deep, bears S 38 deg 50 min E 145 feet  
distant; a blacksmith shop bears S 71 deg 25  
min E 105 feet distant, and a house bears S 34  
deg 25 min E 30 feet distant on the east. This  
notice is supplemental to original notice, to  
correct a mistake herein, pursuant to an order of  
the Commission of the General Land Office.  
Any and all persons claiming adversely any por-  
tion of said Price, hole, mine or surface ground  
are required to file their adverse claims with the  
Register of the United States Land Office at Carson  
City in the State of Nevada during the sixty days  
period of publication hereof, or they will be barred  
by virtue of the provisions of the Statute.  
O. H. GALLUP, Register.
